76	3,162	Other (Please specify) : Continuously
77	3,163	Other (Please specify) : Continuously
78	3,194	Other (Please specify) : Having a walkable, pedestrian friendly CBD is a HUGE asset to the community and should be preserved. However, I understand the need/want for vehicular traffic to service businesses downtown (e.g., food deliveries for restaurants). Ideally, the DDA/City would invest in a "retractable" bollard system that would be installed at the "four corners" of downtown (Cady/Center, Dunlap/Center, Wing/Main, Dunlap/Main). This would permit a "best of both worlds" approach whereby downtown could be transformed to a walkable, pedestrian plaza (e.g., evenings, weekends) but still permit vehicular traffic. An added bonus, which I believe is a part of the many community objections, would be removing the unsightly "construction" barricades that currently prevent vehicular traffic. Admittedly, there is some expense to this approach but the inherent flexibility and compromise would be well worth the investment. It would also allow for experimentation and different "configurations" at different times (e.g., only "closing" Main (at Wing and Dunlap) or only closing Center (at Cady and Dunlap).
79	3,206	Other (Please specify) : April-November
80	3,262	Other (Please specify) : I have not seen an analysis of sales from the businesses affected. As a Northville twp resident I go around the closures at least 5 times a week and it is no inconvenience to me. I believe the businesses need to decide based on profit what to do. The city should listen to the businesses not the residents.
